Thank you for purchasing our App. If you have any questions that are beyond the scope of this help file, please feel free to email via our user page contact form <u>here</u>. Thanks so much!

Technical Information:

- 1.To Open Android Studio Click On Android Studio Icon.
- 2. Android Studio > Open an existing Android Studio Project > Go to the Android Project Path > Open "Super Cleaner" Project
- 3. Now Change the Basic Data

■ Change Package:

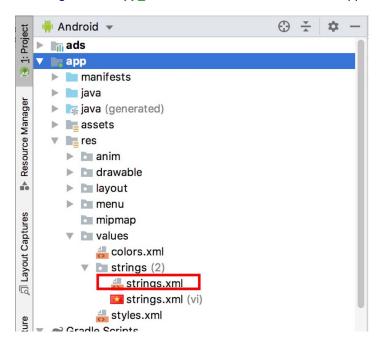

App Folder > Change AndroidManifest File > package="" Change Build Gradle > applicationId=""

■ Change App name:

App Folder > Res Folder > values Folder > Strings.xml

<string name="app_name" translatable="false">App name</string>

■ Change Application Icon:

Change AndroidManifest File > android:icon="@drawable/logo" Replace icon from drawable folder App Folder > res Folder > drawable Folder > logo.png

android:icon="@drawable/logo"

■ Change FanPage Link :

App Folder > Res Folder > values Folder > Strings.xml

<string name="link_fb">https://linkyourpage.com</string>

■ Change More App Link :

App Folder > Res Folder > values Folder > Strings.xml

```
<string
name="link_store_more_app">hhttps://play.google.com/store/apps/developer?id=your+store
</string>
```

Replace Ad Id:

Ads Folder > Res Folder > values Folder > Strings.xml

```
ads > src > main > res > values > strings.xml
                            in ads

■ Change Title email feedback :

Ads Folder > Res Folder > values Folder > Strings.xml

```
// Title mail and email feed back
<string name="Title_email" translatable="false">App Title feed back</string>
<string name="email_feedback" translatable="false">emailne@gmail.com</string>
```

4. Now Generate Signed Apk Follow this Step When Create New Key Store:

Android Studio >

Build >

Generate Signed Bundle/APK >

Select APK >

Click on Next >

Create New Key store >

Fill All Details to Create New key store >

Enter Key store password >

select key alias >

key password >

Click on Next >

```
In Build Variants Select Release >
In Signature Versions Select V1(Jar Signature) >
Click on Finish.
```

Follow this Step When Choose Existing Key Store: Android Studio >

Build >

Generate Signed Bundle/APK >

Select APK >

Click on Next >

Choose Existing Key Store >

Go to the key store Path >

Enter Key store password >

select key alias >

key password >

Click on Next >

In Build Variants Select Release >

In Signature Versions Select V1(Jar Signature) >

Click on Finish.

5.Now Get Your Sign APK Your Project path > app > release > app-release.apk
